OUR STORY

Every Great Ride Begins with a Purpose

8 GEAR was built on a simple belief: riders shouldn't have to choose between protection, comfort, and style.

Before founding 8 GEAR, we spent years manufacturing and supplying private-label apparel for brands around the world. That experience showed us where the industry often fell short — quality, craftsmanship, consistency, and comfort.

As riders ourselves, we understood the realities of the road. Traditional motorcycle gear was often heavy, hot, and bulky, making it difficult to wear every day. So we set out to create something different — Protection. Comfort. Style. Without Compromise.

Intelligent Riding Apparel

Protection. Comfort. Style. — Without Compromise.

Intelligent Riding

Intelligence means designing every garment with purpose.

From **premium performance fabrics** and reinforced construction to **strategically placed protection, removable armor, ventilation, stretch, and weather-resistant components**—every detail is engineered for the rider.

OUR ORIGIN

From One Small Room to a Global Vision

It began in a small room, with two partners sharing one vision. Instead of relying entirely on outside manufacturers, we made a bold decision—to build our own manufacturing operation from the ground up. Every investment had the same purpose:

- To control quality.
- To innovate faster.
- To deliver on time.
- To build products we would proudly wear ourselves.

Today, every design, every fabric selection, every protective lining, every stitch, and every inspection reflects the standards we have set for ourselves - Because if our name is on the product, it has to earn a rider's trust.

OUR CULTURE

Quality Is Part of Our Culture

Quality isn't a department. It's our culture. Every 8 GEAR product is built with the care and attention we expect as riders ourselves.

From manufacturing and product development to customer service and after-sales support, we remain personally involved at every step — because when riders choose 8 GEAR, they place their confidence in us.

We believe trust is earned through consistency — and we take that responsibility seriously.

WHAT DRIVES US

Vision Statement

Our vision is to redefine the biking experience through sustainable gear that delivers unmatched safety, comfort, and style. At 8 Gear, we aspire to be the most trusted name in biking gear by embracing ethical sourcing, sustainable materials, and high-performance products built for every terrain and every rider.

Mission Statement

Our mission is to craft high-performance, innovative biking gear that blends precision engineering with modern design. We aim to build the future of biking gear through sustainable materials and responsible craftsmanship, ensuring a better ride for both people and the planet.

THE ROAD AHEAD

This Is Only the Beginning

Every collection, Every partner, Every rider, Every kilometer;
Brings us closer to our vision.

What started with a dream, a small room, and a passion for
motorcycles is becoming a global movement.

Wherever the road takes you:

Ride with Confidence.

Ride with Purpose.

Ride with Protection.

Welcome to 8 GEAR — Intelligent Riding Apparel.

Urban Fit Denim Jeans with Kevlar®

The Kevlar®-lined construction delivers elevated abrasion and tear resistance, while preserving the flexibility and breathability essential for refined everyday riding.

Adjustable armor compatibility provides dependable impact protection with uncompromised comfort and freedom of movement.

Engineered where technical performance meets timeless design, 8 Gear Protective Motorcycle Jeans bring advanced road protection to the enduring sophistication of classic denim.

MATERIALS

Kevlar®

Kevlar® is a registered trademark of DuPont™ de Nemours Inc. or its affiliates.

High-strength aramid fiber

A lightweight, heat-resistant, and durable synthetic aramid fiber engineered for demanding applications.

Five times stronger than steel

Known for its exceptional strength-to-weight ratio, widely used in body armor, military equipment, tires, cables, and personal protective clothing.

Continually evolving

Newer iterations like Kevlar® EXO™ offer improved flexibility and protection without added bulk.

Repellent

Single Layer Denim Jeans with Dyneema®

Constructed from **high-performance Dyneema®-blended denim**, the protective strength is integrated directly into the fabric weave.

This advanced construction eliminates the need for bulky inner linings while maintaining **flexibility, breathability, and the authentic look of traditional denim**.

The advanced fabric blend delivers **long-term durability, natural stretch for unrestricted movement, and responsibly sourced materials**, ensuring high performance without compromising comfort or style.

8GEAR

Dyneema®

Dyneema® is a trademark of DSM.

- **Backward-integrated engineering**
Unlike others, Dyneema® uses its own raw materials to perform molecular engineering at the polymer stage.
- **The strongest synthetic fiber on the market**
This engineering expertise increases fiber strength, ensuring Dyneema® is quite simply the strongest synthetic fiber available today.
- **A conscious choice**
Using Dyneema® in 8-Gear products ensures our customers get the best quality, feel, and safety in their gear.

BUILT FOR THE RIDE THAT BELONGS TO YOU

Café Racer Kevlar Jeans with Selvedge Denim

Café racing was never about following the crowd. It's about stripped-back machines, handcrafted details, open roads, and a style that belongs to you.

At 8 GEAR, we bring that same philosophy to what you wear. Built for the rider who appreciates clean design, authentic character, and dependable protection without compromising style.

8 GEAR jeans combine a timeless denim silhouette with motorcycle-ready protection and premium comfort — every mile has a purpose.

Kevlar® Lined

Class AA-CE

Level 2 Armors

8GEAR

MATERIALS

Selvedge Denim

A clean, self-finished edge

"Selvedge," short for self-edge, is woven on traditional shuttle looms, creating a tightly bound edge that does not fray and needs no overlock stitching.

Built to hold its shape

The dense weave provides a sturdy structure that resists stretch distortion at high-stress points like pockets and belt loops.

Craft that ages with you

Made with superior cotton and traditional craft, selvedge denim molds to the body and fades in a personalized pattern — the cuffed hem reveals the iconic selvedge ID line.

THE EVERYDAY PANT, ELEVATED FOR THE RIDER

Hudson Chino's Slim Straight Fit

More than a chino. It's for the rider who doesn't change his identity when he gets off the bike. Riding gear you don't have to change out of.

8 GEAR Chinos bring the clean, refined character of classic chinos together with the attitude of a modern rider — from the morning commute to a coffee stop, the workshop to an evening out.

The strength of the 8-GEAR Chino is its understated design — a timeless wardrobe essential that carries the brand's motorcycle DNA without being defined by it.

CHINO COLLECTION

Hudson Chino's — Slim Straight Fit

1

Premium everyday construction

Focused on fabric feel, stitching, hardware, waistband construction and finishing.

2

Subtle motorcycle DNA

Avoids excessive logos, pockets and tactical details.

3

Comfort + movement

A little stretch, articulated construction, and a well-engineered fit.

4

Protection, engineered and certified

Developed with abrasion-resistant fabrics, armor compatibility, and CE certification.

SUSTAINABILITY

Planet Bikers

At 8 Gear, sustainability and ethical sourcing are fundamental to how we operate. We partner exclusively with audited farms and manufacturing facilities that adhere to fair labor standards, transparent supply chains, and inclusive workplace policies.

Through our Planet Bikers initiative, we actively measure and manage our environmental impact, promoting renewable energy adoption, water-efficient manufacturing processes, and responsible resource management.

Our initiatives support women's empowerment, workforce development, and fair employment opportunities within the regions where our products are made — our goal is a more responsible, transparent, and equitable global supply chain.

AA CERTIFIED PROTECTION

Meets EN 17092-3:2020
AA standard for abrasion & impact protection

KEVLAR® REINFORCED

PREMIUM CRAFTMANSHIP

High-Quality stitching and finishes built to last ride after ride

BUILT TO LAST

Durable material and construction for long term performance

SUSTAINABLE AND ETHICAL SOURCING

Ethically sourced green materials & responsible manufacturing

Certification

AA and AAA certified

All 8 Gear products are at minimum AA certified, with some aimed at AAA certification. Since April 2018, motorcycle garments fall under PPE regulations and are tested by an independent, officially notified body under CE – EN 17092-2:2020.

What CE means

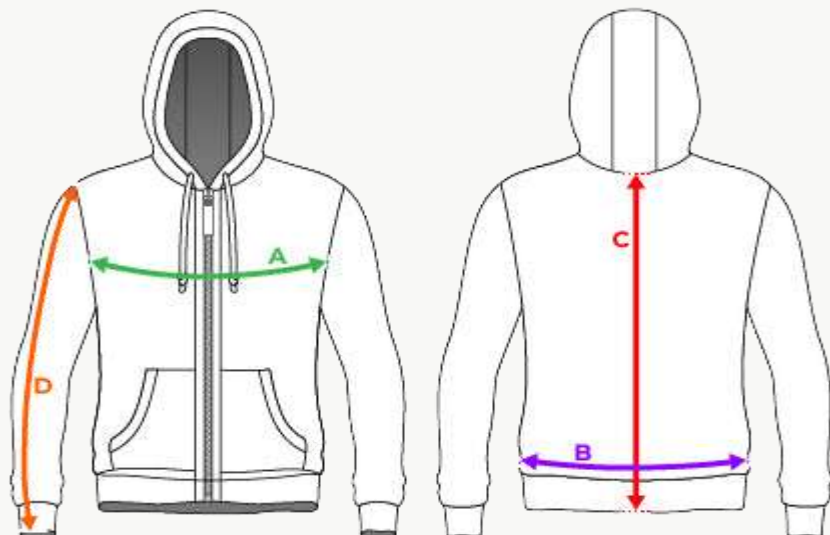

CE stands for Conformité Européenne (European Conformity) — a declaration of compliance with applicable health, safety, and environmental legislation for products sold within the European Economic Area.

Quality you can trust

We value the quality and safety of our products, our certified raw materials, and our manufacturing operations. Ride in comfort and safety with 8-Gear.

HIGH-PERFORMANCE IMPACT PROTECTION

Elbow • Knee • Shoulder • Hip

Back • Chest

Water Repellency

EU-certified finish

8-Gear gives you the option of water repellency certified under EU standards for denim jeans, fleece hoodies and cargo, and socks & tee shirts.

Built to last

The water repellency can last up to 6 washes and does not affect the comfort, safety, or aesthetic of the garment.

Water-repellent clothing features a surface treatment—typically a Durable Water Repellent (DWR) coating—that causes water to bead up and roll off rather than soaking immediately into the fabric
